JANUARY/JANVIER

ARTICLES

Hubert Morin et Danielle Laprise Histoire récente des épidémies de la Tordeuse des bourgeons de l'épinette au nord du lac Saint-Jean (Québec) : une analyse dendrochronologique 1

P. von Aderkas, K. Klimaszewska, and J. M. Bonga Diploid and haploid embryogenesis in *Larix leptolepsis*, *L. decidua*, and their reciprocal hybrids 9

Robert G. Haight and Robert A. Monserud Optimizing any-aged management of mixed-species stands. I. Performance of a coordinate-search process 15

Gary A. Ritchie A rapid method for detecting cold injury in conifer seedling root systems 26

Y. Yamaoka, R. H. Swanson, and Y. Hiratsuka Inoculation of lodgepole pine with four blue-stain fungi associated with mountain pine beetle, monitored by a heat pulse velocity (HPV) instrument 31

Ingemar Karlsson and John Russell Comparisons of yellow cypress trees of seedling and rooted cutting origins after 9 and 11 years in the field 37

M. Sabourin, M. Dessureault et J. A. Bérubé Espèces biologiques d'armillaire dans les érablières dépérissantes du sud-est du Québec 43

Michael G. Ryan Growth and maintenance respiration in stems of *Pinus contorta* and *Picea engelmannii* 48

Jay S. Jacobson, Laurence I. Heller, Karen E. Yamada, Joseph F. Osmeloski, Twylene Bethard, and James P. Lassoie Foliar injury and growth response of red spruce to sulfate and nitrate acidic mist 58

John N. Owens, Anna M. Colangeli, and Sheila J. Morris The effect of self-, cross-, and no pollination on ovule, embryo, seed, and cone development in western red cedar (*Thuja plicata*) 66

Kurt H. Riitters A comparison of chronologies from tree rings 76

Paul E. Heilman Growth and N status of *Populus* in mixture with red alder on recent volcanic mudflow from Mount Saint Helens 84

F. L. Bunnell Reproduction of salal (*Gaultheria shallon*) under forest canopy 91

Fred L. Bunnell and David J. Vales Comparison of methods for estimating forest overstory cover: differences among techniques 101

NOTES

J. J. Zwiazek and T. J. Blake Effects of preconditioning on carbohydrate and amino acid composition of osmotically stressed black spruce (*Picea mariana*) cuttings 108

T. J. Tworkoski, M. S. Ross, and G. M. Hopper Analysis of chestnut and scarlet oak stump sprout growth 112

RAPID COMMUNICATION / COMMUNICATION RAPIDE

K. E. Percy, C. R. Krause, and K. F. Jensen Effects of ozone and acidic fog on red spruce needle epicuticular wax ultrastructure 117

Instructions to Authors v

FEBRUARY/FÉVRIER

ARTICLES

A. Corriveau, J. Beaulieu, F. Mothe, J. Poliquin et J. Doucet Densité et largeur des cernes des populations d'Épinettes blanches de la région forestière des Grands Lacs et du Saint-Laurent 121

E. K. Morgenstern and T. J. Mullin Growth and survival of black spruce in the range-wide provenance study 130

David W. Valentine and H. Lee Allen Foliar responses to fertilization identify nutrient limitation in loblolly pine 144

M. B. Adams, N. T. Edwards, G. E. Taylor, Jr., and B. L. Skaggs Whole-plant ^{14}C-photosynthate allocation in *Pinus taeda*: seasonal patterns at ambient and elevated ozone levels 152

Brian W. Geils and William R. Jacobi Development of comandra blister rust on lodgepole pine 159

Michael G. Ryan, Jerry M. Melillo, and Andrea Ricca A comparison of methods for determining proximate carbon fractions of forest litter 166

M. S. Jamnick, L. S. Davis, and J. K. Gilless Influence of land classification systems on timber harvest scheduling models 172

Rene I. Alfaro and S. A. Y. Omule The effect of spacing on Sitka spruce weevil damage to Sitka spruce 179

Marcel Prévost et Hassan A. Bolghari Croissance et enracinement de deux provenances d'Épinette noire en fonction de la densité apparente du sol et de ses propriétés hydriques 185

K. L. Taylor and R. W. Fonda Woody fuel structure and fire in subalpine fir forests, Olympic National Park, Washington 193

Paul C. Van Deusen A dynamic program for cross-dating tree rings 200

Richard T. Busing and Xinyuan Wu Size-specific mortality, growth, and structure of a Great Smoky Mountains red spruce population 206

Robert P. Griffiths, Bruce A. Caldwell, Kermit Cromack, Jr., and Richard Y. Morita Douglas-fir forest soils colonized by ectomycorrhizal mats. I. Seasonal variation in nitrogen chemistry and nitrogen cycle transformation rates 211

James S. Clark Twentieth-century climate change, fire suppression, and forest production and decomposition in northwestern Minnesota 219

D. Stuart Crombie and J. T. Tippett A comparison of water relations, visual symptoms, and changes in stem girth for evaluating impact of *Phytophthora cinnamomi* dieback on *Eucalyptus marginata* 233

Daniel Auclair, Jacques Evin, and Loïc Pagès Variations in carbon 14 content in tree rings during the last 30 years: application to wood dating 241

NOTES

P. Chakravarty and L. Chatarpaul Effect of fertilization on seedling growth, ectomycorrhizal symbiosis, and nutrient uptake in *Larix laricina* 245

John D. Stuart, James K. Agee, and Robert I. Gara Erratum: Lodgepole pine regeneration in an old, self-perpetuating forest in south central Oregon 249

RAPID COMMUNICATIONS / COMMUNICATIONS RAPIDES

Gregory A. Reams and Manuela M. P. Huso Stand history: an alternative explanation of red spruce radial growth reduction 250

Jean Bousquet, Luc Simon, and Maurice Lalonde DNA amplification from vegetative and sexual tissues of trees using polymerase chain reaction 254

MARCH/MARS

ARTICLES

Jeremy S. Fried, James R. Boyle, John C. Tappeiner II, and Kermit Cromack, Jr. Effects of bigleaf maple on soils in Douglas-fir forests 259

Jeannie Gilbert and David Punter Release and dispersal of pollen from dwarf mistletoe on jack pine in Manitoba in relation to microclimate 267

Thomas B. Lynch Stand volume estimation from tree counts in the context of vertical line sampling 274

Jarmo K. Holopainen The relationship between multiple leaders and mechanical and frost damage to the apical meristem of Scots pine seedlings 280

K. K. Carter, G. W. Adams, M. S. Greenwood, and P. Nitschke Early family selection in jack pine 285

Edward H. Holsten and Richard A. Werner Comparison of white, Sitka, and Lutz spruce as hosts of the spruce beetle in Alaska 292

Charles R. Niebling and M. Thompson Conkle Diversity of Washoe pine and comparisons with allozymes of ponderosa pine races 298

Pierre Y. Bernier Wind speed and snow evaporation in a stand of juvenile lodgepole pine in Alberta 309

Hal E. Anderson Moisture diffusivity and response time in fine forest fuels 315

M. H. McDade, F. J. Swanson, W. A. McKee, J. F. Franklin, and J. Van Sickle Source distances of coarse woody debris entering small streams in western Oregon and Washington 326

L. E. DeWald, E. I. Sucoff, T. Ohno, and C. A. Buschena Response of northern red oak (*Quercus rubra*) seedlings to soil solution aluminum 331

Andrew R. Autry, John W. Fitzgerald, and Penny R. Caldwell Sulfur fractions and retention mechanisms in forest soils 337

K. A. Stegemoeller and H. N. Chappell Growth response of unthinned and thinned Douglas-fir stands to single and multiple applications of nitrogen 343

James K. Agee, Mark Finney, and Roland de Gouvenain Forest fire history of Desolation Peak, Washington 350

E. O. Robertson, L. A. Jozsa, and D. L. Spittlehouse Estimating Douglas-fir wood production from soil and climate data 357

NOTES

Daniel K. Struve and Steven E. McKeand Growth and development of eastern white pine rooted cuttings compared with seedlings through 8 years of age 365

M. P. Amaranthus, C. Y. Li, and D. A. Perry Influence of vegetation type and madrone soil inoculum on associative nitrogen fixation in Douglas-fir rhizospheres 368

APRIL/AVRIL

Advances in Canadian Forest Research

Chalk River, Canada
October 3 to 5, 1988 / du 3 au 5 octobre 1988

INTRODUCTION

David G. Brand Advances in Canadian forest research: an introduction 373

REVIEWS / SYNTHÈSES

Hank A. Margolis and David G. Brand An ecophysiological basis for understanding plantation establishment 375

David A. MacLean Impact of forest pests and fire on stand growth and timber yield: implications for forest management planning 391

R. James Barbour and Robert M. Kellogg Forest management and end-product quality: a Canadian perspective 405

ARTICLES

A. N. Burdett Physiological processes in plantation establishment and the development of specifications for forest planting stock 415

Peter Kourtz Artificial intelligence: a new tool for forest management 428

Bradley R. Kropp and Charles-Gilles Langlois Ectomycorrhizae in reforestation 438

W. M. Cheliak and D. L. Rogers Integrating biotechnology into tree improvement programs 452

Donald G. Leckie Advances in remote sensing technologies for forest surveys and management 464

MAY/MAI

ARTICLES

S. B. McLaughlin, C. P. Andersen, N. T. Edwards, W. K. Roy, and P. A. Layton Seasonal patterns of photosynthesis and respiration of red spruce saplings from two elevations in declining southern Appalachian stands 485

T. G. Gregoire, S. M. Zedaker, and N. S. Nicholas Modeling relative error in stem basal area estimates 496

T. E. Kolb, T. W. Bowersox, and L. H. McCormick Influences of light intensity on weed-induced stresses of tree seedlings 503

L. F. Ohmann and D. F. Grigal Spatial and temporal patterns of sulfur and nitrogen in wood of trees across the north central United States 508

B. Långström, O. Tenow, A. Ericsson, C. Hellqvist, and S. Larsson Effects of shoot pruning on stem growth, needle biomass, and dynamics of carbohydrates and nitrogen in Scots pine as related to season and tree age 514

E. B. Moser, A. M. Saxton, and S. R. Pezeshki Repeated measures analysis of variance: application to tree research 524

Steen Magnussen Application and comparison of spatial models in analyzing tree-genetics field trials 536

Shigeru Uemura, Satoshi Tsuda, and Sakae Hasegawa Effects of fire on the vegetation of Siberian taiga predominated by *Larix dahurica* 547

B. Bruce Bare An analysis of forest property tax burdens under a land and reforestation tax system: a western Washington case study 554

David G. Simpson Frost hardiness, root growth capacity, and field performance relationships in interior spruce, lodgepole pine, Douglas-fir, and western hemlock seedlings 566

Robert H. Jones and Rebecca R. Sharitz Effects of root competition and flooding on growth of Chinese tallow tree seedlings 573

R. P. Brockley Response of thinned, immature lodgepole pine to nitrogen and boron fertilization 579

James R. Olson, Sun Joseph Chang, and Paul C. Wang Nuclear magnetic resonance imaging: a noninvasive analysis of moisture distributions in white oak lumber 586

Lars-Göran Sundblad, Michael Sjöström, Gunilla Malmberg, and Gunnar Öquist Prediction of frost hardiness in seedlings of Scots pine (*Pinus sylvestris*) using multivariate analysis of chlorophyll *a* fluorescence and luminescence kinetics 592

NOTES

N. B. Vanhinsberg and S. J. Colombo Effect of temperature on needle anatomy and transpiration of *Picea mariana* after bud initiation 598

Theo Verwijst Clonal differences in the structure of a mixed stand of *Salix viminalis* in response to *Melampsora* and frost 602

D. C. Loshali, V. P. Upadhyay, R. P. Singh, and J. S. Singh Overland flow and soil movement from forests in Kumaun Himalaya 606

R. M. Danielson and S. Visser The mycorrhizal and nodulation status of container-grown trees and shrubs reared in commercial nurseries 609

Craig G. Lorimer and Lee E. Frelich Erratum: A methodology for estimating canopy disturbance frequency and intensity in dense temperate forests 615

Canopy Gaps in Forest Ecosystems

Columbus, Ohio
August 1987 / août 1987

INTRODUCTION

Julie S. Denslow and Thomas Spies Canopy gaps in forest ecosystems: an introduction 619

ARTICLES

Charles D. Canham, Julie S. Denslow, William J. Platt, James R. Runkle, Tom A. Spies, and Peter S. White Light regimes beneath closed canopies and tree-fall gaps in temperate and tropical forests 620

James R. Runkle Gap dynamics in an Ohio *Acer–Fagus* forest and speculations on the geography of disturbance 632

Julie Sloan Denslow and Ana E. Gomez Diaz Seed rain to tree-fall gaps in a Neotropical rain forest 642

Thomas A. Spies, Jerry F. Franklin, and Mark Klopsch Canopy gaps in Douglas-fir forests of the Cascade Mountains 649

Robert O. Lawton Canopy gaps and light penetration into a wind-exposed tropical lower montane rain forest 659

JUNE/JUIN

ARTICLES

Andrew F. Howard and Jordan S. Tanz Optimal road spacing for multistage cable yarding operations 669

Mark J. Twery, Garland N. Mason, Philip M. Wargo, and Kurt W. Gottschalk Abundance and distribution of rhizomorphs of *Armillaria* spp. in defoliated mixed oak stands in western Maryland 674

Chuxing Sheng and Shasheng Wang Effect of applied growth regulators and cultural treatments on flowering and shoot growth of *Pinus tabulaeformis* 679

Robert A. Monserud, Ula Moody, and David W. Breuer A soil-site study for inland Douglas-fir 686

Dale H. Vitt, Diana G. Horton, Nancy G. Slack, and Nils Malmer *Sphagnum*-dominated peatlands of the hyperoceanic British Columbia coast: patterns in surface water chemistry and vegetation 696

Susan L. Borchers and David A. Perry Growth and ectomycorrhiza formation of Douglas-fir seedlings grown in soils collected at different distances from pioneering hardwoods in southwest Oregon clear-cuts 712

R. van den Driessche Paclobutrazol and triadimefon effects on conifer seedling growth and water relations 722

Mary A. Arthur and Timothy J. Fahey Mass and nutrient content of decaying boles in an Engelmann spruce – subalpine fir forest, Rocky Mountain National Park, Colorado 730

D. N. Jordan and B. G. Lockaby Time series modelling of relationships between climate and long-term radial growth of loblolly pine 738

Paul C. Van Deusen Stand dynamics and red spruce decline 743

Louis Archambault, Robert R. Gagnon, Georges Pelletier, Michel Chabot et Louis Bélanger Influence du drainage et de la texture du dépôt sur la vulnérabilité du Sapin baumier et de l'Épinette blanche aux attaques de la Tordeuse des bourgeons de l'épinette 750

B. G. Bentzer, G. S. Foster, and A. R. Hellberg Impact of clone mixture composition on stability of 7th-year mean height in a series of Norway spruce clone tests 757

Constance A. Harrington and Charles A. Wierman Growth and foliar nutrient response to fertilization and precommercial thinning in a coastal western red cedar stand 764

Rolfe A. Leary and W. Brad Smith Test of the TRIM inventory projection methods on Wisconsin jack pine 774

William McKillop and Gao Liu Modelling disaggregated lumber demand and supply by constrained estimation techniques 781

John L. Innes and Roger C. Boswell Reliability, presentation, and relationships among data from inventories of forest condition 790

George Z. Gertner The sensitivity of measurement error in stand volume estimation 800

Victor J. Lieffers and S. Ellen Macdonald Growth and foliar nutrient status of black spruce and tamarack in relation to depth of water table in some Alberta peatlands 805

M. R. Becwar, R. Nagmani, and S. R. Wann Initiation of embryogenic cultures and somatic embryo development in loblolly pine (*Pinus taeda*) 810

J. P. Shepard, M. J. Mitchell, T. J. Scott, and C. T. Driscoll Soil solution chemistry of an Adirondack Spodosol: lysimetry and N dynamics 818

David L. Frank, Asghedom Ghebremichael, Tae H. Oum, and Michael W. Tretheway Productivity performance of the Canadian pulp and paper industry 825

Howard B. Kriebel Genetic improvement of sugar maple for high sap sugar content. II. Relative effectiveness of maternal and biparental selection 837

NOTES

R. O. Weber The moist strand and the burning bed 845

Gregory L. Reighard and James W. Hanover Shoot and root development and dry matter partitioning in *Populus grandidentata*, *P. tremuloides*, and *P.* × *smithii* 849
